

**Make Your Own**  
**Photo Stencils**  
**for electro-chemical-etch marking**  
**with Durable Stencil Material from TUS.**

We offer everything you need to make your own stencils fast and easy, and at low cost.

- Produce the inscription on your computer in any text program, Corel Draw, Adobe Illustrator, etc.
- Print image on laser printer or ink jet printer onto TUS supplied transparent film
- Expose Sheet Stencil Material or Preframed Stencil Material with transparent film image
- Develop stencil in mild TUS stencil developer (water base)
- Water rinse/wash and air dry
- Now the stencil is ready for marking
